Risk and Consequences

Accidents can be the result of the nature of the activity and can occur with or without any fault on either the part of the student, or the school board, or its employees or agents, or the facility where the activity is taking place. By allowing your child to participate in this activity you are accepting the risk of an accident occurring and agree that this activity, as described, above is suitable for your child.

Behavioural Expectations

On all field trips, students are expected to follow both the District Code of Conduct and the School Code of Conduct. It is expected that students will conduct themselves in a respectful and considerate manner as they will be representatives of their school and the New Westminster School District. Any student who fails to abide by the codes of conduct will be subject to disciplinary action on the trip as determined by the supervisors and, upon return, as determined by the administration.

Emergency Planning

The supervisor will carry or have access to a first aid kit during the field trip. A list of specific medical needs of students will be available to supervising staff. At least one supervising adult will have access to a cell phone. In the event of a student injury parent/guardians will be notified.

Medical/Accident Insurance

If your child does not have the necessary medical and accident insurance, it is up to the parent/guardian to ensure their child has the necessary coverage.

RISK MINIMIZATION

A paramount consideration on selecting, planning, organizing and conducting student field trips is to minimize risk to everyone, as all field trips entail some added element of risk. Risk cannot be eliminated but it can be managed. Student field trips involve different degrees of risk and accordingly call for different levels of care, conduct, communication and consent.

It is the expectation that parents giving their consent for their child to participate in an out-of-school field trip have familiarized themselves with the potential risks of the planned activity and have contacted the school if they have any questions on associated safety plans, risk management, supplies, equipment or other concerns.

Examples of High-Risk Activities

- Canoeing/kayaking/rafting
- Mountain biking/hiking
- Gymnastics
- Rock climbing
- Skiing/snowboarding
- Swimming in open water
- Wall climbing
- Ice skating
- Cheerleading

Principals having concern as to whether a particular activity is considered high-risk should direct their questions to the Superintendent of Schools.

Examples of Safety Equipment Used with High-Risk Activities

- Safety helmets must be worn by all participants, including supervisors/chaperones involved in cycling, skating, skiing, snowboarding, rock climbing, skateboarding, rollerblading and whitewater activities.
- For boating activities, students must be wearing Ministry of Transportation and Infrastructure (M.O.T.I.) approved lifejackets or Type 1 approved personal flotation devices/life jackets or be following the specific rules for competition.
